I reserve the right to substitute some other good variety or other
kind of plants for any plants listed which I may be out of at the
time your order is received. I believe I'll have ample plants of
all kinds to fill all collection orders as listed, however.

Here Is My Guarantee to You

P. D. FULWOOD

I POSITIVELY guarantee all my plants to be exactly as described in this catalog. I guarantee them to be fresh, pure, genuine and unadulterated—and I also guarantee all plants to be carefully selected, to be pulled one at a time, and counted and bundled right in the fields. Any plants which may prove to be otherwise through possible error will be replaced free of charge.

I am the only plant grower pulling plants one at a time. This, I find, eliminates the possibility of poor sorting and as only well-developed, hardy, well-rooted plants are pulled you are assured of receiving plants of the highest quality. Cheaper plants are pulled by the handfuls and you get half plants and half runts and trash. When you consider this feature, my plants are far cheaper per plant than those offered by most plant growers—and it costs real money to ship runts and trash by mail or express. The crates I use are the most expensive I can buy, so my plants will be sure to reach you in perfect condition and also so you will not be paying express charges on a lot of useless weight.

Incidentally the express companies have reduced express rates on plants, which also assists you in saving more money on your plants this year.

(See Special Garden Collections on back of order blank)

\$500 in Cash Prizes

THE BANK OF TIFTON

CAPITAL AND SURPLUS \$200,000.00

TIFTON, GA.

E. C. BOWEN,
President
W. M. McLEOD,
Vice President & Cashier
W. B. DODD,
Assistant Cashier
F. P. FRANKLIN,
Assistant Cashier

December 20, 1933

to Whom It May Concerns.

This is to certify that Mr. P. D. Fulwood of Tifton, Georgia has deposited \$500.00 with us which we have placed into a special account for the payment of cash prizes which he is offering to his customers in his 1934 catalog.

These cash prizes are to be awarded to the successful contestant as decided upon by Mr. Otis Woodward, and his staff of the Coastal Plains Experiment Station of Tifton, Georgia and cashier's checks will be mailed by us directly to the thirty winners from the special fund mentioned above.

We wish to take this opportunity of stating that our dealings with Mr. Fulwood have extended over a long period of time and they have always been thoroughly satisfactory in every respect and we regard him as reliable and responsible and good for his contracts.

Yours very truly,

A. C. McLeod
Vice-Pres. & Cashier.

Above is a reproduction of a letter written by the Bank of Tifton, Tifton, Georgia, which certifies that I have deposited \$500.00 with them which has been placed in a special fund. This fund is for payment of cash prizes to be awarded to the successful contestants in my Cash Prize offer for the thirty (30) best photographs of gardens and fields of cabbages grown from Fulwood's Genuine Frost-Proof Cabbage Plants.

These prizes will be paid by the bank, directly to the prize winners. See complete details on next page. Be sure and enter this contest.

(See Special Garden Collections on back of order blank)

\$500.00 in Cash Prizes for Photographs of Gardens and Fields Planted With Fulwood's Genuine Frost-Proof Cabbage Plants

I want photographs of both small gardens and large fields showing the unusually good results obtainable from planting my fine frost-proof cabbage plants and I will pay \$500.00 in cash for the best certified photographs sent me—these to be taken just before harvesting.

So that both the smallest and largest buyers can profit by this offer I will pay a total of \$250.00 for the fifteen best certified photographs of small and medium sized cabbage patches in which my plants have been planted, and a total of \$250.00 for the fifteen best certified photographs of fields containing 10,000 or more of my cabbage plants.

The list of prizes will be as follows:

	Small and Medium Size Cabbage Patches	Fields Containing 10,000 Plants or More
First prize	\$100.00	\$100.00
Second prize	50.00	50.00
Third prize	25.00	25.00
Fourth prize	15.00	15.00
Fifth prize	10.00	10.00
Sixth to fifteenth prizes (10 prizes each)	5.00 Each	5.00 Each

Each photograph is to be accompanied with a letter certifying that all of the cabbages pictured have been grown from Fulwood's Genuine Proof-Proof Cabbage Plants.

Winners of prizes will be announced and the photographs selected will be shown in my 1935 catalog and checks will be mailed to the successful contestants at that time by the Bank of Tifton at the direction of the judges of the contest.

Judges will consist of Mr. Otis Woodward and his staff of the Coastal Plains Experiment Station, located at Tifton, Georgia.

All photographs must be received by me not later than November 1, 1934. The decisions of the judges will be final and no photographs will be returned.

(See Special Garden Collections on back of order blank)

FULWOOD'S GENUINE FROST-PROOF CABBAGE PLANTS

You can make real cash—and plenty of it in raising Cabbage from Fulwood's Genuine Frost-Proof Cabbage Plants. You can easily raise from six to ten tons per acre. Think of the profits you can make. Set out all the Cabbage you can, as early as possible in your locality, and you will be the man with money in the bank when your crop matures.

Vegetables sold early in the season bring many times the price of those marketed several weeks later. Fulwood's Genuine Frost-Proof Cabbage Plants produce full-grown heads from two to three weeks before home-grown plants—and that's why they are a real money-maker for the gardener.

Here at Tifton, Georgia, where my plantation is located, the soil and climatic conditions are ideally suited for growing tough,

(See Special Garden Collections on back of order blank)

hardy, healthy Cabbage plants in the open field during the winter and early spring. The plants make a slow but steady growth and when eight to ten weeks' old they are extremely tough and hardy. In this condition they can be shipped to territory farther north and be planted in the open fields there a month or six weeks earlier than home-grown, hot bed, or cold frame plants.

These Frost-Proof Cabbage plants will stand temperatures of 18 to 20 degrees above zero without injury. Freezing of the soil or covering of the plants with ice, sleet or snow after they have been planted will not injure them unless the temperature gets below 18 or 20 degrees.

Because my plants are so strong and healthy, and because they can safely be planted considerably in advance of home-grown plants, is the reason for their being able to make large, extra early crops—all ready for marketing during the time prices are highest. Many unreliable growers are selling plants and are calling them "frost-proof." In many instances these growers are located where they do not have frosts during the growing period and therefore the plants they are offering have never been subjected to frosts.

Where my plantation is located we have light frosts all through the winter growing season and as all of my plants are grown right out in the open fields, Mother Nature provides them with the strength and stamina to withstand cold temperatures. Be sure you buy genuine FROST-PROOF plants for a sure crop.

This year I have acre after acre of the finest Cabbage plants I have ever had. Climatic conditions have been perfect and they are in unusually fine condition, being tough and hardy and ready to start growing in your ground whenever you can plant them in your locality. I treat all my seed before planting to prevent disease and as further precautions, I change my lands each year and spray the plants often during cultivation.

Mr. Fulwood:

Millard, Va.

Send the cabbage plants as good as last year and there will be no kick coming, as they were No. 1 plants. The best and earliest I ever grew before. I sure do recommend your plants highly. I will send an order for tomato plants later.

Yours truly, MRS. FRED YATES.

Dear Mr. Fulwood:

Tanner, Ala., R 1 B 22.

I have used your plants for over five years and I find them to be the best I ever used. I have sold many heads of them and I don't order from any one except P. D. Fulwood.

Yours truly, IDELLA MCDADE.

(See Special Garden Collections on back of order blank)

VARIETIES OF FULWOOD'S GENUINE FROST-PROOF CABBAGE PLANTS

EARLY JERSEY WAKEFIELD

Many market gardeners consider this the very best cabbage grown. Its merits are many, among which are medium heads for an early variety, small outside foliage, and uniformity of crop. Heads are white, solid and tender. This variety always brings a good price because of its earliness and it is therefore a good money-maker. See prices on page 7.

COPENHAGEN MARKET

A fine Cabbage. This variety is nearly as early as the Jersey Wakefield. The stem is short, has large round and solid head with few outer leaves of an upright growth. My stock of this popular variety is extra early, uniform and dependable. See prices on page 7.

GOLDEN ACRE

This variety has the same general description as the Copenhagen Market—and in fact, is a strain of that variety. Some growers prefer this variety which is priced the same as my other varieties. See prices on page 7.

SUCCESSION

The earliest of the flat-head varieties. A sure header and a very hardy grower both in cold and warm weather. This is grown very extensively in the South and gives universal satisfaction. Heads are of uniform shape, not too flat and exceptionally solid. See prices on page 7.

Dear Mr. Fulwood:

I have been using your cabbage and onion plants for about seven years. They are the best "frost-proof" plants I have ever used. They really give satisfaction.

Tyrone, Ark., March 4, 1933.

Yours truly, BELL NASON.

Dear Mr. Fulwood:

Received plants this morning in fine condition.

Emerald, Pa., May 22, 1933.

FRANK F. FATZINGER.

(See Special Garden Collections on back of order blank)

CHARLESTON WAKEFIELD

This Cabbage is much like the Jersey Wakefield. It has a much larger head, however, and is about ten days later. This is a desirable variety for shipping purposes as the heads are solid and firm. It is a strong favorite with growers for a main crop. See prices below.

EARLY FLAT DUTCH

One of the oldest varieties. The head is unusually large and flat, tender and fine grained. My strain of this Cabbage is of the best to be had. It is excellent for a tonnage crop because of the large heads. See prices below.

CABBAGE AND ONION PLANT PRICES

All Varieties at Same Prices

Fulwood's Genuine Frost-Proof Cabbage and Onion Plants are ready for shipment throughout the year except during the hot summer months. You can order them any time from September 1st until the following June 1st. All Cabbage plants are tied in bunches of 50 plants. Onion plants are in bunches of 100 plants.

FROST-PROOF CABBAGE AND ONION PLANT PRICES

Prices by parcel post prepaid:

200 plants for.....	\$.60
500 plants for.....	1.10
1,000 plants for.....	2.00

Prices by express or mail—Charges collect:

500 plants for	\$.65
1,000 to 4,000 plants at rate of.....	1.00 per 1,000
5,000 to 9,000 plants at rate of.....	.90 per 1,000
10,000 plants and over.....	.75 per 1,000

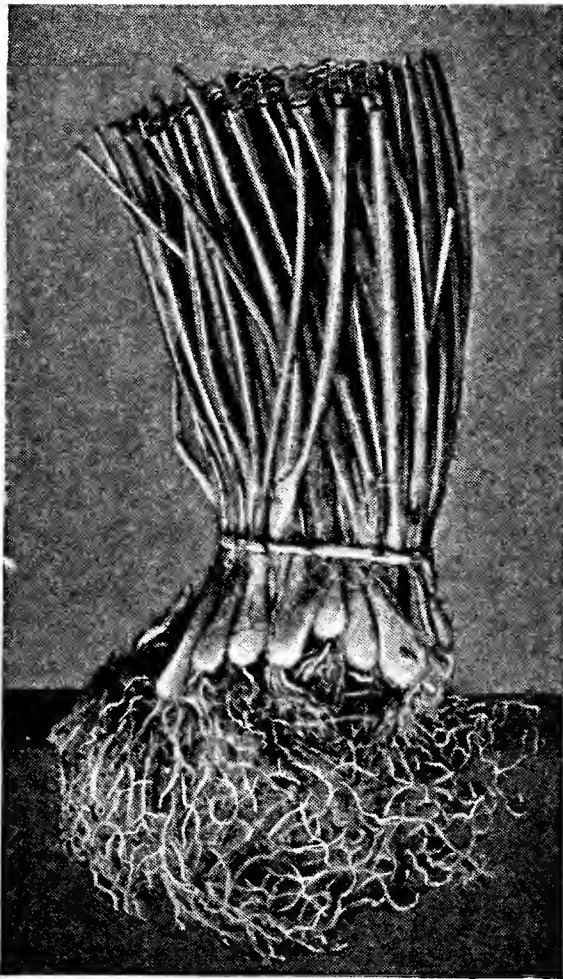

Dear Sir:

Your plants have been excellent in quality and all shipments have arrived in good condition.

Memphis, Mo., May 16, 1933.

Yours truly, O. L. DRUMMOND.

(See Special Garden Collections on back of order blank)

FULWOOD'S GENUINE FROST-PROOF ONION PLANTS

Like all Genuine Fulwood Vegetable Plants, my onion plants are grown, packed and shipped with the utmost care and precision. Plants are grown from the finest seed I can obtain. All seed is treated before planting and plants are sprayed during the growing period and thus you are assured of good, healthy, strong plants. Because they are grown in the open field and are subject to light frosts during the growing period, they are Genuine Frost-Proof plants and will stand tem-

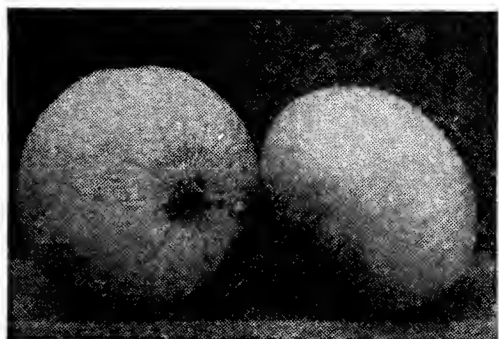

peratures as low as 18 to 20 degrees above zero without injury.

Onions grown from Fulwood's Genuine Frost-Proof Onion Plants are also an excellent money crop as they can be marketed at least two weeks in advance of onions grown from sets and way ahead of onions grown from seed. Furthermore, my plants will make much better onions than those grown from sets, the onions being larger and they do not run to seed. They will also keep much better when cured and stored.

My Onion plants should be set out the same time as my Cabbage plants and you can order them for shipment at the same time. Prices are the same as for Cabbage plants and I will gladly mix an order, shipping part Onion plants and part Cabbage plants, if you desire.

(See Special Garden Collections on back of order blank)

VARIETIES OF FULWOOD'S GENUINE FROST-PROOF ONION PLANTS

YELLOW BERMUDA

This is the most widely grown of all Bermuda Onions. No sweeter Onion is grown than this, and it always has a ready market and is a large producer and a real money-maker. Whether grown for marketing or for your own table use, you can make no mistake in ordering this variety.

CRYSTAL WAX BERMUDA

Probably the best selling Bermuda Onion on the market because of its exceptionally attractive appearance. It has the same general appearance as the Yellow Bermuda except that it is crystal white and waxy. Because of its sweet, mild flavor, like the Yellow Bermuda, this is an excellent eating onion.

SPANISH VALENCIA (or Sweet Spanish)

This variety can be grown in warm climates as successfully as the Bermuda varieties and much more successful in Northern climates. This is a large globe-shaped brownish yellow onion of large size. The flesh is white, fine-grained, mild and sweet enough to be eaten like an apple. A good keeper and fine shipper when properly cured. Has been known to yield 1,200 bushels per acre.

ONION PLANT PRICES

Fulwood's Genuine Frost-Proof Onion Plants are ready for shipment any time from September 1st to June 1st following. All Onion plants are tied in bunches of 100 plants. Onion plants are priced the same as Cabbage plants, for all varieties, and should be set out the same time. I will gladly mix an order, shipping part Onion plants and part Cabbage plants, if you desire. See price list on page 7.

Dear Mr. Fulwood:

Farrell, Pa., May 31, 1933.

I received the plants I ordered from you and was very much pleased with them. The plants were excellent and the crating very good. I thought I would write and let you know that I was very much pleased.

Respectfully yours, JOHN DIEGAN.

(See Special Garden Collections on back of order blank)

OTHER FULWOOD'S GENUINE FROST-PROOF PLANTS

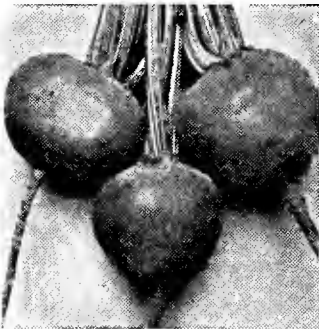

(Ready Sept. 1st Until June 1st)

FULWOOD'S GENUINE FROST- PROOF CAULIFLOWER PLANTS

SNOWBALL VARIETY

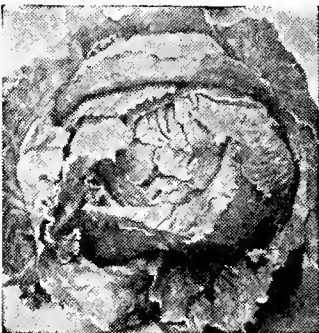

Why be satisfied with a later crop at ordinary prices when you can buy my plants and have an extra early crop which can be sold at top prices. The Snowball variety makes a large, perfect, sure header of excellent quality. Prices by parcel post, postpaid: 100 plants for **75c**—500 plants for **\$2.00**—1,000 plants for **\$3.00**. Prices for shipment by express collect, any quantity, **\$2.50** per 1,000 plants.

FULWOOD'S GENUINE FROST-PROOF BEET PLANTS

CROSBY EARLY EGYPTIAN VARIETY

This is probably the most popular beet grown and I specialize in this one variety because it is the finest all-around home garden and market beet and can be grown in all localities successfully. Have an extra early crop by ordering your beet plants from me. Prices same as for Cauliflower plants.

FULWOOD'S GENUINE FROST- PROOF LETTUCE PLANTS

ICEBERG VARIETY

Have this very finest variety of lettuce ready for market way ahead of lettuce planted from seed. I plant only this one dependable variety because of its quality and dependability as a sure cropper. Prices same as for Cauliflower plants.

(See Special Garden Collections on back of order blank)

FULWOOD'S SPRING PLANTS

(Not Frost-Proof) Ready April 1st to June 1st.

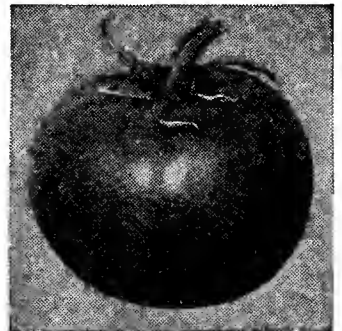

FULWOOD'S SWEET POTATO PLANTS PORTO RICO VARIETY

In my opinion this is the very best all-around Potato on the market. It is from two to three weeks ear-

lier than any other yam. It is an enormous yielder and vigorous grower. Its flesh is red and very sweet with unsurpassed eating qualities. This particular variety has been quite well introduced into the northern markets within recent years and curing houses are paying more for it than any other. A fine keeper. During most years there is a shortage of good plants of this variety and I advise sending in your orders as early as possible for shipment at any time you may specify. All orders will be shipped in the order in which they are received. Prices by parcel post prepaid: 500 plants for **\$1.50**; 1,000 plants for **\$2.50**. Prices by express not prepaid: 1,000 plants to 4,000 plants at **\$2.00** per 1,000; 5,000 plants to 9,000 plants at **\$1.75** per 1,000; 10,000 plants and over at **\$1.50** per 1,000.

FULWOOD'S TOMATO PLANTS

**VARIETIES: GREATER BALTIMORE,
MARGLOBE AND BONNIE BEST**

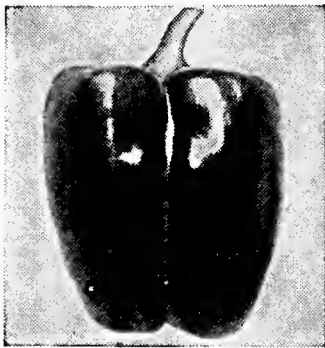

I ship more Tomato plants than any other grower, shipping them by the millions to practically every state in the Union to both large and small canning factories, truck farmers, gardeners and to individuals who grow tomatoes for their own use. I have developed these varieties to a very high state and my plants are exceptionally well rooted, large and stocky. They are all open-field grown and are acclimated to outside temperatures and will start growing quickly and produce rich, red ripe tomatoes much earlier and more surely than home-grown plants. Tomato plants

(See Special Garden Collections on back of order blank)

are not frost-proof, however, and should not be ordered shipped until all danger of killing frost is past. My Tomato plants are not perishable and when packed as I pack them in deep, damp moss they will keep in good condition for several days. Order Bonnie Best for early market and home garden use. The Marglobe is wilt-resistant and the fruit is of medium size, solid, good color and good shipper and will make a fine main crop. The Greater Baltimore variety is a mid-season tomato and is used more by canners than any other, producing a very heavy crop of large solid tomatoes and a sure cropper. *Prices by parcel post, prepaid*: 100 plants for **50c**; 500 plants for **\$1.75**; 1,000 plants for **\$2.50**. *Prices by express collect*: 1,000 plants to 4,000 plants at **\$1.75** per 1,000; 5,000 plants to 9,000 plants at **\$1.50** per 1,000; 10,000 plants to 20,000 plants at **\$1.25** per 1,000. Write for prices on larger quantities.

FULWOOD'S PEPPER PLANTS

VARIETIES: WORLD BEATER AND RUBY KING

Both of these varieties are exceptionally sweet and mild, are good shippers and vigorous growers. Set out a quantity of either or both of these varieties and have peppers on the market much earlier than peppers grown from seed. These plants are full bodied and strong and you'll be much more sure of a full crop than if you depend upon growing from seed. *Prices by parcel post, prepaid*: 100 plants for **75c**; 500 plants for **\$2.00**; 1,000 plants for **\$3.00**. *Prices by express collect*: **\$2.50** per 1,000 for any quantity.

FULWOOD'S HOT PEPPER PLANTS

Long Red Cayenne Variety: Price by parcel post, postpaid: **50c** per dozen plants. Write for prices on larger lots.

Dear Mr. Fulwood:

Newark, Del., Nov. 7, 1933.

I have bought plants from you for three years. Last spring I got tomato plants and I have never had tomatoes to yield like those. And as for those sweet potato plants, some of them were 8 inches long and the only way I will ever be without them, you will have to quit raising plants. They are far above our sweet potatoes up here. And also your cabbage.

Yours very truly, HOWARD CONGO.

(See Special Garden Collections on back of order blank)

FULWOOD'S EGGPLANT PLANTS

BLACK BEAUTY VARIETY

I specialize on this one variety because of its many merits. It holds its color exceptionally well, grows very large, has good shape and is of unusually good quality. The

Black Beauty variety is naturally early and if you'll grow it from my fine plants your crop will be just that much earlier. *Prices by parcel post, postpaid:* 100 plants for **75c**; 500 plants for **\$2.00**; 1,000 plants for **\$3.00**. *Prices by express collect:* **\$2.50** per 1,000 plants in any quantity.

Dear Mr. Fulwood:

Old Concord, Pa., June 12, 1933.

I beg to herewith acknowledge receipt of the fine shipment of plants. The plants arrived in fine shape and we put them in the field at once. They are growing nicely and we are away ahead of our neighbors in growth and numbers.

With very kindest wishes.

Sincerely yours, GLENN H. WILLIAMS.

Dear Sir:

Elkton, Md., May 24, 1933.

Please accept my thanks for the tomato plants that you sent me. The shipment arrived in good condition, and I appreciate the attention you gave me.

Respectfully yours, HOWARD S. VINCENT.

Dear Mr. Fulwood:

Scottville, Ky., Feb. 27, 1933.

We have used your plants ten years and want to say they are the best we ever got anywhere. Have sent orders for several others and they say there are none as good anywhere as Fulwood's.

Yours truly, WILLIS LONG.

P. D. Fulwood,
Tifton, Ga.

Vermont, Ill., March 12, 1933.

Dear Sir:—I ordered plants from you last year and was well pleased. They were the best plants I ever ordered and were packed better than any I ever received from any other company. So I am sending you another order.

Yours truly, ARCHIE L. YOUNG.

P. D. Fulwood,
Tifton, Ga.

Verdon, Nebr., Feb. 21, 1933.

Dear Sir:—Through a friend I got some of your plants last year. They sure were the stuff, went through a snowstorm and froze hard, the plants came through O. K. Want more this spring. Please send price list by return mail.

Yours and oblige, W. M. GIBSON.

Dear Mr. Fulwood:

Hutchinson, Minn., Feb. 18, 1933.

The cabbage plants I bought from you last spring were the finest we ever had in this locality. My customers were more than pleased because of their hardiness and crispy value.

Fraternally, HERMAN J. KARTH.

(See Special Garden Collections on back of order blank)

FULWOOD'S BROCCOLI PLANTS

Green Sprouting Variety

A sufficiently new vegetable to bring a good price especially in city markets where the demand is growing fast. Many smaller heads will form after central head is removed, and will keep bearing for 8 to 10 weeks. Prices by parcel post, postpaid: 100 plants for 75c; 500 plants for \$2.00; 1,000 plants for \$3.00. Prices for shipment by express collect, any quantity, \$2.50 per 1,000 plants.

FULWOOD'S CELERY PLANTS

Tall Golden Improved Self-Blanching Variety

The best early celery for market gardeners. Stocky, compact, crisp and tender. Prices same as for Broccoli plants.

FULWOOD'S KOHL RABI PLANTS

Early Purple Vienna Variety

Extremely early. Bulbs grow to the size of a small apple. The flavor is a combination of cabbage and turnip flavors. Kohl Rabi is at its best when grown from plants. Prices same as for Broccoli plants.

FULWOOD'S BRUSSELS SPROUTS PLANTS

Long Island Improved Variety

Tiny little cabbages which grow in sprouts close on the stalk at each leaf joint. Sweet, tender and fine eating. Sprouts are from 1 to 2 inches in diameter. My plants will give you the best crop. Prices same as for Broccoli plants.

Mr. P. D. Fulwood,
Tifton, Ga.

Columbus, Ohio, May 19th, 1933.

Dear Sir:—We beg to acknowledge receipt of the cauliflower sample for which please accept our thanks. We are going to use it for demonstration in our garden here. The last shipment of tomatoes (packed loose) arrived in excellent shape and plants were very nice. We were at station when they arrived. Had to wait until train came in; thus by knowing date of shipment we are just one day ahead.

We are sending telegram for plants this evening.

Thanking you for the prompt service you have shown us we are,

Very truly yours, K. P. KINER.

P. D. Fulwood,
Tifton, Ga.

Terre Haute, Ind., May 5, 1933.

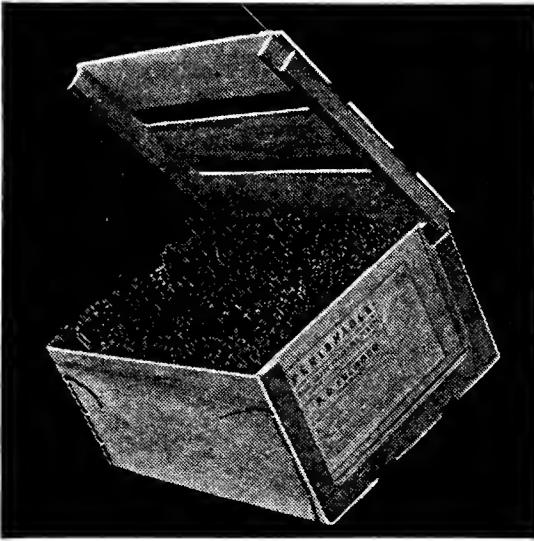

Dear Sir:—Received shipment of plants today. They were nice fresh plants and in good condition. Also were in nice shape to set out in open field.

Thank you.

WM. HESEDING, 1640 S. 25th St.

(See Special Garden Collections on back of order blank)

HOW FULWOOD'S PLANTS ARE PACKED

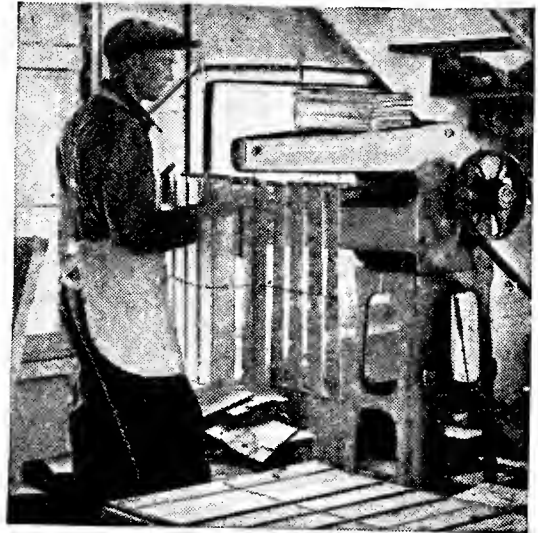

ONION PLANTS IN CRATE

CABBAGE PLANTS IN CRATE

After I have grown the very finest plants possible to grow, it would be downright foolishness to pack and ship them in any manner whereby I would run the slightest chance of their not reaching you in perfect condition. I use the best and most expensive crates I can buy and I have perfected my packing and shipping methods to the point where I can fully guarantee all my plants will arrive at destination in perfect condition for planting. All plants are pulled one at a time, sorted, counted, bundled, packed, crated and shipped, all on the same day. This insures maximum freshness at the time of shipping. All shipments are made on the same day orders are received, except when unusually bad weather prohibits getting into the fields for a day or two. I could pull my plants several days ahead and keep them in cold storage, as some plant growers do, but such methods would prohibit my iron-bound guarantee of all plants arriving in perfect condition.

My twenty-five years of experience has taught me much about sorting, bundling, packing and

ASSEMBLY OF CRATES

(See Special Garden Collections on back of order blank)

crating and when your plants arrive you'll have a good full count—they'll be correctly packed in light-weight wire bound, strong, well ventilated crates and there will be no runts or damaged plants. My shipping crates are assembled right here with my own machinery. I have designed the correct kind of crates for each plant and all shipments will arrive at destination with crates and contents intact.

The kind of plants, the season of the year, and other factors to be considered, determine whether the roots of the plants shall, or shall not be packed in damp moss and wrapped in waxed paper. Such packing is not always advisable and inasmuch as I guarantee my plants to arrive in perfect condition I reserve the right to select the most proper method of packing at the time shipments are made.

All Genuine Fulwood plants are perfectly produced and shipped—they are priced exceptionally low, especially for plants of such high quality—they will produce vegetables of the very highest quality at the very earliest possible time. Place your plant orders where you can obtain such dependable service from a really responsible grower. Tear out one of the order blanks in this catalog, fill it in carefully being sure to write your name and address plainly and mail it to me with your remittance and you'll receive the finest plant satisfaction you've ever received. You'll be notified by mail the day your plants are shipped.

I reserve the right to substitute some other good variety or other kind of plants for any plants listed which I may be out of at the time your order is received. I believe I'll have ample plants of all kinds to fill all collection orders as listed, however.

The more than 1,200 acres of the Fulwood Plantation, containing the finest plant growing soil obtainable, is devoted solely to the growing of Genuine Fulwood's Vegetable Plants. A very small portion of this enormous acreage and the general character of the various fields is pictured above. The lower illustration shows one of the fields irrigated by a piped water system.
